

Scottish Widows Strategic Solution

Fund objective

To provide capital growth through investment in other funds to provide exposure to a mix of asset classes. Between 50% and 80% of the Fund will provide exposure to shares. This may include UK, overseas and emerging markets shares. A maximum of 35% of the Fund will provide exposure to fixed interest securities. This may include sterling denominated investment grade bond funds which may consist of corporate and UK government bonds, covered bonds and index-linked bonds. The Fund may also invest in overseas corporate and government bond funds and high yield bonds funds. A maximum of 25% of the Fund will provide exposure to property. This may include UK and overseas property funds. The Fund may also provide exposure to absolute return strategies, private equity, commodities and (directly or indirectly) cash and cash like investments. Scottish Widows determines the percentage of the Fund normally allocated to each asset class based on its medium to long term outlook for that asset class. Scottish Widows may review and change this from time to time based on their view at that time. The Fund Manager may make shorter term changes to the above, by allocating more or less to specific asset classes, based on their short term view of the asset class. The underlying funds used by the... (Please refer to the Trustnet Factsheet or the Provider's Own Factsheet for the full Fund Objective)
