

OMR FTF Clearbridge US Value

Fund objective

The OMR FTF Clearbridge US Value fund invests solely in the FTF Clearbridge US Value fund, a sub fund of Franklin Templeton Funds II, a UK authorised Investment Company with Variable Capital, managed by Franklin Templeton Fund Management Limited. The underlying fund aims to achieve capital growth, through investment of at least 80% of the net asset value of the underlying fund in securities of US issuers. The underlying fund invests into a relatively small number of assets, or into individual countries or a specific market sector. Such concentrated portfolios give rise to more risk than where investments are spread across a larger number of assets, countries or market sectors. The underlying fund may be denominated in or hold assets in a currency other than Sterling. The performance of the fund may therefore rise and fall as a result of exchange rate fluctuations. The RLL unit-linked fund tracks the performance of the underlying retail fund and is prefixed with the term "OMR" in order to distinguish it from the underlying retail fund. Investors should note that they are investing in the RLL unit-linked fund, not the underlying retail fund. The investment performance of the RLL version of the fund will be similar, but not the same, as investing in the underlying retail fund ...
