

Sterling BlackRock Balanced Growth Portfolio

Fund objective

The BlackRock Balanced Growth Portfolio fund (the underlying 'Fund') aims to provide a return on your investment (generated through an increase in the value of the assets held by the Fund) with the opportunity for additional income generation (i.e. income received on the Fund's assets) where market conditions allow. The Fund may invest globally in equity securities (e.g. shares), fixed income securities (such as bonds), money-market instruments (i.e. debt securities with short-term maturities), funds and cash (in any currency). The fixed income securities and money-market instruments may be issued by governments, government agencies, companies and supranationals (e.g. the International Bank for Reconstruction and Development). The Fund will invest in the full range of fixed income securities which may include investments with a relatively low credit rating or which are unrated. The investment adviser (IA) will use derivatives (i.e. investments the prices of which are based on one or more underlying assets) to help achieve the Fund's investment objective. These may be used to gain indirect exposure to commodities (such as precious metals and agricultural produce) and to property. The Fund may, via derivatives, generate varying amounts of market leverage (i.e. where the F.. (Please refer to the Trustnet Factsheet or the Provider's Own Factsheet for the full Fund Objective)
