

CM Vanguard ESG Developed World All Cap Equity Index CM1 Pn

Fund objective

The Fund tracks the performance of the FTSE Developed All Cap Choice Index (the "Index"). The Index is composed of shares of companies in developed markets around the world. It's constructed from the FTSE Developed All Cap Index and screened for certain environmental, social, and corporate governance (ESG) criteria by the Index sponsor. The Fund promotes environmental and social characteristics by excluding companies based on the impact of their conduct or products on society and/or the environment. This is met by tracking the Index which excludes shares of companies that the Index sponsor determines to be engaged/ involved in, and/or derive revenue (above a specified threshold) from: Vice products, Non- renewable energy, Weapons, Controversies. The Fund's holdings will, when purchased, comply with the ESG requirements of the Index, except when using derivatives (see below). The Fund may hold securities which don't comply with the ESG requirements of the Index until they are not part of the Index and can be liquidated. The Fund may use derivatives to reduce risk/cost and/or generate extra income/growth. Derivatives on an index may contain constituents don't meet the ESG criteria.
