

## Clerical Medical UK Index-linked Gilt Pension

### Fund objective

The Fund aims to provide income and capital growth by investing in UK government Index-Linked bonds (gilts). The benchmark index for the Fund is the FTSE Actuaries Government Securities UK Index Linked TR All Stocks (the "Index"). The Fund is actively managed. The Fund Manager aims to outperform the Index by 0.35% per annum on a rolling 3 year basis, before deduction of fees. At least 80% of the Fund will invest in UK government Index-Linked bonds. It may also invest in other types of index-linked securities, including bonds from other governments and investment grade corporate bonds. Investment in the asset classes will be direct and indirect using derivatives to seek to meet the Fund's aim. The use of derivatives depends on market conditions and is limited as the intention is this should not change the Fund's risk profile. In addition the Fund may invest in other funds, cash and cash like investments. Derivatives and stock lending may be used in a way that is designed to reduce risk, or cost and/or generate extra income or growth (often referred to as efficient portfolio management).
