At least 80% of the Fund will be invested in shares of companies which are part of the Index. The Fund may also invest in other funds, including those managed by HIFML and its associates. HIFML instructs the Fund Manager on the proportion to be allocated to companies in the Index. At least 90% will be invested in companies in developed markets, and not more than 10% in companies in emerging markets. The allocation may differ through market movements or Fund Manager discretion. The extent to which the Fund's investment in various sectors may differ to the Index is limited. The limits help to provide a balance between the spread of assets within the Fund and risk management.
