

## Clerical Medical International Growth Pension

### Fund objective

The fund invests through the HBOS Investment Fund Managers (HIFML) International Growth OEIC Fund. The OEIC Fund aim is: To provide capital growth by investing in a diversified global portfolio of company shares. The benchmark for the Fund is the MSCI All Country World Index (the "Index"). The Fund Manager seeks to outperform the Index by 1.25% on a rolling 3 year basis, before deduction of fees. At least 80% of the Fund will be invested in shares of companies which are part of the Index. The Fund may also invest in other funds, including those managed by HIFML and its associates. HIFML instructs the Fund Manager on the proportion to be allocated to companies in the Index. At least 90% will be invested in companies in developed markets, and not more than 10% in companies in emerging markets. The allocation may differ through market movements or Fund Manager discretion. The extent to which the Fund's investment in various sectors may differ to the Index is limited. The limits help to provide a balance between the spread of assets within the Fund and risk management. They also provide a balance between the amount the Fund can vary from the Index and providing the Fund Manager with flexibility to seek to outperform the Index. Because the Fund may only take limited position... (Please refer to the Trustnet Factsheet or the Provider's Own Factsheet for the full Fund Objective)
