

# Clerical Medical Developed Government Bond Tracker Pension

## Fund objective

The Fund invests via the Scottish Widows Unit Trust Managers Limited (SWUTM) Developed Government Bond Tracker OEIC Fund. The OEIC fund aim is to: track the performance of the FTSE World Government Bond Index – Developed Markets currency-hedged in GBP terms (the "Benchmark Index"), before deduction of fees. The Fund aims to closely track the Benchmark Index using an approach that aims to produce returns and volatility closely aligned to the Benchmark Index.

It will invest in investment grade bonds issued or guaranteed by governments and supranational bonds in developed markets. The bonds can be denominated in any currency, but non-Sterling investment grade bonds will be hedged back to Sterling to offset the effect of currency exchange rate movements.

The Fund may also invest in cash including cash-like investments.

Investment in the asset classes will be direct, and indirect using derivatives as an additional way for the Fund to invest with the aim of meeting the Fund's investment objective. The extent of derivative use for investment purposes is dependent on market conditions and will be limited as the intention is that this should not change the risk profile of the Fund.

The Fund may invest in other funds, including those managed by SWUTM and its associates.
