

HLL BlackRock Sterling Liquidity

Fund objective

The Fund aims to maximise income on your investment consistent with maintaining capital and ensuring its underlying assets can easily be bought or sold in normal market conditions. Money invested in the Fund is not protected or guaranteed. The Fund invests in a broad range of High Credit Quality fixed income securities (such as bonds) and money market instruments (MMIs) (i.e. debt securities with short term maturities). It may also invest in deposits with credit institutions (e.g. banks). The investment manager will take into account certain environmental social and governance criteria when selecting investments, as detailed in the Fund's prospectus. The Fund is a "Short Term Low Volatility Variable Net Asset Value Money Market Fund" (or LVNAV) as defined by the EU Money Market Funds Regulations.
