

# Scottish Equitable BlackRock Balanced Managed Pn

## Fund objective

This fund aims to provide a return for investors by investing at least 50% of its total assets in a global portfolio of equities (shares) and fixed income securities (bonds). The fund may also invest in other asset classes, such as collective investment schemes, money market instruments and deposits. The fixed income securities and money-market instruments may be issued by governments, government agencies, companies and supranationals (e.g. the International Bank for Reconstruction and Development). The fund will invest in the full range of fixed income securities and money-market instruments which may include investments with a relatively low credit rating or which are unrated. Derivatives may be used for the purposes of efficient portfolio management (EPM). The use of derivatives in EPM is generally to reduce risk, reduce cost or to generate additional income for the fund without increasing risk.

## Detailed fund information

**Unit name** Scottish Equitable BlackRock Balanced Managed Pn

**FE fundinfo Crown Rating** ★★★★★

**Sector** Mixed Investment 40-85% Shares

**Domicile** United Kingdom
